

Supplemental Writing Credit

Application Form

A student may seek **Supplemental Writing Credit** when undertaking a larger research project than is compatible with the designated credits of a course in which the student is registered. While such individual research is done in the context of a substantive course, the rules set out for Individual Research (5797A/D) apply *mutatis mutandis*. However, there is no restriction on the number of times that a student may obtain supplemental credit. If supplemental credit is approved, the student will obtain credit for the course in the normal fashion, plus one (1) additional credit for the supplemental work. The supplemental writing credit appears as a separate line of registration on a student's academic record. Application deadline is on the last day of the Add/Drop period in each term.

Papers are due **no later than the last day of classes in the term** in which the Supplemental Writing Credit is undertaken.
